

ENVIRONMENTAL POLICY

Twister Cleaning Technology AB will play a part in the creation of a sustainable society and a strong brand from an environmental perspective. We strive to look after the environment by making the company's various processes more efficient to reduce their environmental burden. Our environmental responsibility involves:

- Increasing knowledge and awareness of environmental issues among all employees
- Systematically developing and improving products and processes
- Increasing the efficiency of our use of energy and other natural resources
- Considering environmental aspects when choosing materials and chemicals
- Basing our environmental targets on our environmental impact and continually following up and adjusting them to our operations
- Complying with statutes and ordinances and considering these as setting minimum requirements for our environmental work
- Continuously aiming to improve the use of our resources and prevent pollution

Applicable from 28/04/2016

Robert Kreicberg, CEO Twister Cleaning Technology AB
